Christopher Charles

Email: chris-dev0@use.startmail.com **Phone**: (216) 505-8859

GitHub: https://chris-dev0.github.io **Address**: Strongsville, OH

Goal

Obtain a Co-op or Internship for the Summer of 2026 or Beyond

Education

Cleveland State University: Cleveland, Ohio (Expected Grad: December 2026) (GPA: 3.16)

- Bachelor of Science in Computer Science
- Minor in Mathematics

Strongsville High School: Strongsville, Ohio (Graduated: May 2022) (GPA: 3.49)

Skills

- Proficient in object-oriented programming languages such as Java, C#, and Python
- Experience with both Linux and Windows as day-to-day operating systems
- Hobbyist experience with Docker containers and self hosting servers
- Practiced in web design skills like HTML, CSS, and Bootstrap
- Familiar with secure networking services and remote access tools (*Tailscale VPN, Nomachine*)
- Regular practice in data synchronization, backup, and redundancy tools and strategies
- Past on-the-job experience doing basic computer repairs and hardware troubleshooting
- Well-rounded soft skills in written and verbal communication, attention to detail, problem solving, and troubleshooting

Projects

Mini-Music-Player [Personal Project] (Summer 2025) https://github.com/Chris-Dev0/Mini-Music-Player

- Designed a cross-platform desktop music player application using the Godot game engine and C#
- Refined the user interface and experience over multiple iterations to best suit my use case
- Implemented multiple different features and settings to improve general usability

LEEP [Senior Design] (Spring 2026) https://github.com/LEEPCSU/LEEP (currently private)

- Worked with a team of two other students to build an online test platform for our senior design professor
- Designed and built a cross-platform test-taking application in the .NET UI framework Avalonia
- Added secure exam question retrieval and student answer submissions using the SSH and SCP protocols

Solar Lander [Personal Project] (Winter 2023) https://github.com/Chris-Dev0/Solar-Lander

- Created an n-body simulation with the Java game framework lib-GDX
- Added a user controllable ship to fly around and interact with the gravitational forces of the planets
- Improved over time with user interface elements like a fully functional mini map and force vector representations on the HUD

Experience

Office Cleaner, RWK Services, Richfield, Ohio (09/24-Present)

- Maintained the cleanliness of assigned corporate office spaces
- Worked independently to ensure suitable attention to detail and cleanliness had been met
- Assisted in training and supervising new hires when supervisor position was vacant
- Covered multiple roles during staff shortages that I had been cross-trained in

IT Summer Intern, Breakthrough Public Schools, Cleveland, Ohio (05/24-07/24 and 06/25-08/25)

- Provisioned, updated, and assigned student and staff laptops or Chromebooks to their respective areas
- Kept up to date records for the inventory at each location and properly disposed of aged-out assets
- Diagnosed, repaired, and resolved malfunctioning hardware to minimize spending on replacements
- Helped to deploy enterprise cybersecurity software across the all the staff laptops in the organization
- Assisted in removal and installation of wireless access points at multiple different campus locations

Hobbies/Interests

- Social Gaming
- Programming / Projects
- Music

Related Courses

- Data Structures and Algorithms
- Systems Programming
- Operating Systems
- Data Base Concepts
- Computer Architecture
- Intro to Web Dev with Global Tech
- Language Processors
- Comparative Programming Languages
- Computer Security
- AP Computer Science Principles
- AP Computer Science
- Computer Networks
- Senior Design 1

Licenses and Certifications

- Coding for Web Parts 1 and 2 – Global Tech Experience – Issued March/April 2024
