Goal

Seeking a full-time position upon my graduation where I can best apply my knowledge and technical skills. Willing and open to relocation.

Education

Cleveland State University: Cleveland, Ohio (Expected Graduation: December 2026)

- Bachelor of Science in Computer Science

Skills

- Proficient in object-oriented programming languages such as *Java*, *C#*, and *Python*
- Experience with both Linux and Windows as day-to-day operating systems
- Hobbyist experience with *Docker* containers and self hosting servers
- Practiced in web design skills like *HTML*, *CSS*, and some light *Javascript*
- Familiar with secure networking services and remote access tools (*Tailscale VPN, Nomachine*)
- Regular practice in data synchronization, backup, and redundancy tools for personal data
- Past on-the-job experience doing basic computer repairs and hardware troubleshooting
- Well-rounded soft skills in written and verbal communication, attention to detail, problem solving, and troubleshooting

Projects

Mini-Music-Player [Personal Project] (Summer 2025)

- Designed a cross-platform desktop music player application with Godot and C#
- Refined the user interface and experience over multiple iterations to best suit my use case
- Implemented multiple different features and settings to improve general usability

LEEP (currently private) [CSU Senior Design] (Spring 2026)

- Worked with a team of two other students to build an online test platform
- Designed and built a cross-platform MVVM+DI test-taking application in the .NET UI framework Avalonia
- Added secure exam question retrieval and student answer submissions using SSH and SCP

Solar Lander [Personal Project] (Winter 2023)

- Created an n-body simulation with the Java game framework lib-GDX
- Added a user controllable ship to fly around and interact with gravitational forces
- Improved over time with user interface elements like a fully functional mini map and force vector representations on the HUD

Experience

Office Cleaner, RWK Services, Richfield, Ohio (September 2024-Present)

- Maintained the cleanliness of assigned corporate office spaces
- Worked independently to ensure suitable attention to detail and cleanliness had been met
- Assisted in training and supervising new hires when supervisor position was vacant
- Covered multiple roles during staff shortages that I had been cross-trained in

IT Summer 2026 Intern, Breakthrough Public Schools, Cleveland, Ohio (June 2026-August 2026)

- Helped diagnose and resolve a critical issue with endpoint security software
- Utilized Google Admin to manage accounts for both new hires and resigning staff
- Diagnosed and improved usability of point of sales machines used at campus cafeterias
- Assisted in familiarizing new hires with Breakthrough's multi-factor authentication systems
- Upgraded older hardware to keep pace with user demands and extend hardware lifespan

IT Summer 2025 Intern, Breakthrough Public Schools, Cleveland, Ohio (June 2025-August 2025)

- Provisioned, updated, and assigned staff laptops to their respective areas and users
- Managed records for the inventory at locations and properly disposed of aged-out assets
- Diagnosed and repaired malfunctioning hardware to minimize spending on replacements
- Helped to deploy enterprise cybersecurity software across all the staff laptops
- Assisted in removal and installation of wireless access points at campus locations
