Goal: Obtain a Coop/Internship for the Summer of 2026 or Beyond

---

Education

Cleveland State University (Expected Grad: December 2026)

- Bachelor of Science in Computer Science with a Minor in Mathematics
- GPA: 3.16

Strongsville High School (Graduated: May 2022)

- GPA: 3.49

Skills

- Proficient in object-oriented languages such as Java and C#
- Experienced with varied systems including Windows, Linux, and VPNs
- Practiced in HTML, CSS, and Bootstrap
- Well-rounded soft skills in written and verbal communication, attention to detail, problem solving, and troubleshooting

---

Experience

Office Cleaner, RWK Services, Richfield, Ohio (09/24-Present)

- Maintain the cleanliness of assigned corporate office spaces
- Work independently to ensure suitable attention to detail and cleanliness had been met
- Coordinate with other team members to cover any callouts

IT Summer Intern, Breakthrough Public Schools, Cleveland, Ohio (05/24-07/24 and 06/25-08/25)

- Provisioned, updated, and assigned student and staff laptops to their respective areas
- Kept up to date records for the inventory at each location
- Diagnosed, repaired, and resolved malfunctioning hardware
- Assisted in deploying enterprise cybersecurity software
- Assisted in removal and installation of wireless access points

Maintenance Worker, Berea City School District, Berea, Ohio (06/23-08/23)

- Worked on a team to maintain and improve BCSD property during the summer session

- Utilized different types of equipment and machinery such as Kubota UTVs, weedwhackers, etc.
- Collaborated with different departments and teams to complete time orders and other tasks

Cashier / Customer Service, Hobby Lobby, Strongsville, Ohio (12/21-07/23)

- Worked part-time with the team at Hobby Lobby to provide the best possible customer service
- Interacted directly with customers to help with purchases, returns, and fulfilling short-term pick-up orders
- Gained skills in many different aspects such as cash handling, customer service, cleaning, and teamwork

Projects

Mini-Music-Player [Personal Project] (Summer 2025) https://github.com/Chris-Dev0/Mini-Music-Player

- Designed a windows desktop music player application using the Godot game engine and C#
- Refined the user interface and experience over multiple iterations
- Implemented multiple different features and settings to improve usability

Solar Lander [Personal Project] (Winter 2023) https://github.com/Chris-Dev0/Solar-Lander

- Created a planet/nbody sim with the lib-GDX java game framework
- Added a user controllable lander/ship to fly around and test the gravitational forces
- Improved over time with user interface elements like a mini map and force vector representation

ParticleSim [Personal Project] (Winter 2023) https://github.com/Chris-Dev0/Particle-Sim

- Built a small falling sand prototype using lib-GDX
- Added visual flair with a height-gradient system
- Gave the user the ability to add particles to observe individual particles in motion

Hobbies/Interests

- Social Gaming
- Programming / Projects
- Music

Relevant Courses

- Data Structures and Algorithms
- Systems Programming
- Operating Systems
- Data Base Concepts
- Computer Architecture
- Intro to Web Dev with Global Tech
- Language Processors
- Comparative Programming Languages
- Computer Security

- AP Computer Science Principles
- AP Computer Science
- Computer Networks
- Senior Design 1

Licenses and Certifications

- Coding for Web Parts 1 and 2 – Global Tech Experience – Issued March/April 2024
